

## BELIEVE LIBERTY BONDS STOLEN IN MISSOURI

Detectives Investigate \$100,000 Worth of Paper on Men in New York.

NEW YORK, July 17.—Detectives investigating ownership of \$100,000 worth of liberty bonds, alleged to have been in possession of two men arrested here recently, announced tonight they had notified officials in several Missouri counties that the bonds are believed to be part of the loot from bank robberies there. Some of these officials, they said, are on their way here to attempt identification of the men under arrest, Carl Jacobson and Joseph Sweet. The men are charged with having stolen bonds in their possession.

Bonds worth \$17,000, according to the police, have been identified as part of the proceeds of a bank robbery

at O'Fallon, Mo., and \$12,000 worth as loot from a robbery at Callao, Mo. Bonds from robberies in Worth, Green Ridge and Gilliam, Mo., the detectives said, also have been recovered here.

## WOMEN'S CAMP OPENED.

ASHEVILLE, N. C., July 17.—The United States training camp for women was formally opened here today with Gov. T. W. Bickett of North Carolina, Judge J. C. Pritchard, Mayor Gallatin Roberts of Asheville, Mayor R. G. Cherry of Gastonia, Col. W. H. Lyster, commanding officer of the United States Army Hospital No. 19, and Maj. Donahoe of the United States Public Health Service Hospital making addresses.

## MESTRE ON LEGAL VISIT.

Judge Salvador Mestre, attorney general of Porto Rico, is on a visit to this city on legal business with the Attorney General of the United States and the bureau of insular affairs, War Department. He is at the New Willard.

## MONUMENT TO WRIGHT DEDICATED IN FRANCE

Commodore Beaumont, Whose Gift It Is, Receives Insignia of Legion of Honor.

LE MANS, France, July 17 (by the Associated Press).—The monument here to Wilbur Wright, commemorating his first public flight in Le Mans and the pioneer work of him and his brother Orville, their predecessors and contemporaries, was dedicated by prominent French and Americans today while airplanes flew overhead. Rear Admiral Thomas P. Macgill, naval attaché to the American embassy in Paris, who represented the United States, and Commodore Louis D. Beaumont, American ambassador to France, and Commodore Louis D. Beaumont were the American speakers. Senator Destournelles de Constant, who presided and also represented the French government, was the chief French speaker. The monument, the gift of Commodore Beaumont, is erected on a foundation presented through French subscriptions. It stands in the center of the city beside the cathedral. It is all of granite, is about forty feet high and is the work of Paul Landowski. The shaft is surmounted by the figure of a man striving to fly through space without wings. During the ceremony the insignia of Chevalier of the Legion of Honor was conferred on Commodore Beaumont.

## CONVICT DENIES MURDER.

Man Says He Did Not Sign a Confession.

AUBURN, N. Y., July 17.—Harold V. Lambie, alias George Brandon, the convict in Auburn prison, who, with Charles Perchand, now in Sing Sing, are reported to have confessed to the double murder of Edith L. Janney and Edward Tupper, nearby Rahway, N. J., two years ago, today denied that he had made a confession. It is known, however, that he signed a confession here last month in the presence of Jersey officials, although Perchand, while orally admitting his share in the murder, did not sign. Both men have been indicted and Gov. Smith will be asked Tuesday to extend clemency so that they may be taken to New Jersey for trial.

## FOUND JOBS FOR YANKS.

Knights of Columbus Secured 254,000 Positions in Six Months.

NEW YORK, July 17.—Knights of Columbus employment bureaus in the United States have found jobs for 254,000 former service men during the last six months, it was announced here today at the Knights of Columbus headquarters. The minimum wage obtained for single men was \$20 a week, it was stated.

## NEIGHBORS' RULE GREAT HEALTH AID

Social Unit Finds 1,200 Per Cent Efficiency Increase in Three Years.

NEW YORK, July 17 (By the Associated Press).—Results achieved in the first three years' experiment in neighborhood government, conducted by the National Social Unit Organization in Cincinnati, Ohio, were summarized in a statement made public here today by C. Wallace Phillips, executive of the organization. The experiment embraces two principles, the statement explained, creation of a neighborhood council of representatives elected by residents of blocks of 100 families each, and creation of an advisory board of representatives elected by members of occupational groups. The chief lessons learned, the statement said, are "increased efficiency in social life, achievement through centralization, which has amounted in the field of public health alone to 300 to 1,200 per cent; the increased participation in the affairs of the neighborhood on the part of the people; the value of supplementing public effort with the assistance of the members of technical groups and the growth of the spirit of true neighborhood." The organization, Mr. Phillips said, will devote its attention for a few months to a careful analysis of the work of the unit from the standpoint of cost and statistics, to supplement the calculations made last winter by experts who visited Cleveland.

## CHILE CALLS MILITARY CLASSES FOR TRAINING

Delicate International Situation Cause of Drill Work for Thirty Days.

SANTIAGO, Chile, July 16 (by the Associated Press).—The international situation has become the chief topic of discussion here, overshadowing the recent presidential election, the next stage of which occurs July 25, when the electors meet to vote on the candidates. The arrival at Arica of former President Guerra and the members of his government deported with his party, made up for the absence of information from La Paz since Suñer last, although direct advice are still confined principally to official telegrams. Meanwhile, the war ministry is proceeding to carry out the provisions of the decree summoning certain military classes to training. Today's newspaper comments on the situation in a calmer tone. Mercurio says: "We are pleased to note the declarations made to our representative in Bolivia by Saverio (Bautista Saverio, head of the new Bolivian government), in which he said that the coming of the republicans in power did not in any manner signify hostility toward Chile." Luis Aldunate, the foreign minister, in a statement to the Associated Press today, said: "As a consequence of the grave events that have occurred in Bolivia and in view of the special situation of our northern frontier, the government by deserts from the rest of the country and without the elements of rapid transportation, the government has seen the necessity of completing the effectiveness of its forces covering the boundary, thus fulfilling an elemental duty of precaution so as to avoid any conflict. "With the object in view, the conscripts in the northern zone of the country have been called into service in numbers considered indispensable for vigilant service. The call is only for thirty days, in which time it is expected the situation in Bolivia will return to normal."

## THIRD PARTY FAILURE, BALTIMOREAN FEARS

Labor Group Only One of 57 Varieties Able to Agree on Program.

BALTIMORE, Md., July 17 (Special).—"There were fifty-seven varieties of opinion among the committee of forty-eight," says one of the two Baltimoreans who went to Chicago as delegates from the committee of forty-eight and came home convinced that the efforts to form a third party, which intelligent men and women might support with some hope of effectiveness was an utter failure. Both of these, William Tappan, president of the Labor Community Corporation, and Mrs. W. J. Brown, indicate that they feel that the failure was due to the inability of various representatives of various theories of government, other than the labor element, to agree on what was important and what was not and the very great ability of labor to agree and to "put it over" on the other delegates at the convention. The Maryland delegates, Mrs. Brown, Mr. Tappan, Rev. Mercer G. Johnson of Glenview, Baltimore county; Frederick W. Wilkie, Jr., and a Mr. Beall of the Brotherhood of Trainmen, came home yesterday. "I have absolutely no respect for the politician," said Mr. Tappan. "I had hoped that this convention would result in the men who had been thinking on the really important subjects of the time getting together and forming a platform which would represent a real return to American principles. But so far as the members of the committee of forty-eight were concerned it developed into a contest of representatives of the single-tax and other special theories for their own theories, and they were unable to get together and to determine what was important and what was unimportant in the things they were advocating. Each man stood unyieldingly for his own theories. The labor element knew exactly what it wanted and was able to put its program over. "The result, so far as I can see, is that there is no third party. The labor program was so radical that we of the committee of forty-eight cannot vote for it. I don't know how I shall vote at the next election."

## NOTABLES ON CELTIC.

Commander Booth, Golf Stars and Lipton's Friends Arrive. NEW YORK, July 17.—Commander Evangeline Booth of the Salvation Army returned here today on the steamship Celtic, after an inspection tour of the British Isles and a visit to the battlefields of France and Belgium. Edward Ray and Harry W. Vardon, the English golf stars, also arrived on the Celtic. Sir Thomas Dewar, famous Scotch manufacturer, and Sir John Ferguson, British financier, both life-long friends of Sir Thomas Lipton, were also aboard the Celtic. They came here to see the international yacht races as Lipton's guests.

## MEMPHIS DEFENDED AGAINST FIRE HAZARD

Reorganization of Department With Volunteer Corps Revealed in Chief's Report.

MEMPHIS, Tenn., July 17.—"With the training of the volunteer firemen continuing and the acquisition of experienced firemen to form an entirely new department being extended by the city, Memphis now has a fire department capable of handling any situation that may arise," was the report made to John B. Edgar, fire and police commissioner, by Chief Fitzmorris of the fire department today. None of the members of the Firefighters' Union who resigned in a body have been reinstated, and the city officials maintain that none can be returned to work. One fire station today was completely manned by regular men of the new department. Also a new station house recently completed and heretofore unoccupied has been put in service with volunteers forming the crew. In a statement issued as a result of the special meeting of the city commission Friday night, Mayor J. R. Faine said: "There can never be a union fire department in Memphis again. Not because unionism is wrong, but because it has no place in a city government. The question of pay is a just one and the city administration is willing to concede that the firemen were inadequately paid. The pay of the firemen is fixed by the legislature and at this time, its officials explained, there is no way in which it can be increased by the city."

## APPOINTED AS PROFESSOR.

Dr. H. R. Kraybill of the bureau of plant industry has been appointed professor of agricultural chemistry and head of the department of chemistry of the New Hampshire State College.

## FIGHT TO BAR EVIDENCE HALTS COMMUNIST TRIAL

Defense Opposes Testimony of U. S. Secret Service Agent Who Posed as Red.

CHICAGO, July 17 (by the Associated Press).—Trial of twenty alleged leaders of the communist labor party on charges of plotting to overthrow the United States government by force was halted today while the defense fought to bar testimony of H. J. Wilson, United States secret agent, who posed in Seattle as a bolshevik leader and was elected secretary of the soldiers, sailors and workmen's soviet council. On the court's decision also depends whether Ole Hanson, ex-mayor of Seattle, and a Canadian, said to have been a member of the Winnipeg general strike committee, can appear. Documents seized by the state in raids on communist labor book stores praised the Seattle and Winnipeg strike leaders, and the state is seeking to introduce evidence which, it is claimed, will show the strikes were inspired by Russians with revolutionary purposes. William "Big Bill" Haywood, former general secretary of the I. W. O., and thirty-six other I. W. O. members, indicted on charges similar to those against the communist laborites, made an unsuccessful effort today to have the indictments quashed. Failing in that, they demanded an immediate trial. Judge Pam reserved decision.

## SEEKS ANOTHER TERM.

NEW ORLEANS, July 17.—Martin Behrman, for sixteen years mayor of New Orleans, tonight announced his candidacy for re-election for a fifth term.
